

J. WAYNE GRAVES JR.

Quality Lead · Healthcare Quality Operations & Process Improvement

Tampa, FL · 813-952-0883 · jwaynegravesjr@gmail.com · [Portfolio](#)

SUMMARY

Quality Lead for an 80-person healthcare operations line of business; manage a 20-person operations team and own 20 operational KPIs. Review about 500 audit records weekly in Excel and prepare internal and client-facing reports. Turn recurring findings into corrective actions, coaching, and guidance for the Genetics Support Tool, now used by 5 teams.

CORE SKILLS

Quality & Audit	Quality operations · Audit review · Turnaround monitoring · Corrective actions
Reporting & Analysis	Excel reporting · Client reporting · Python-assisted genetics error classification
Leadership	Team leadership · Training delivery · Stakeholder collaboration
Process	Process guidance · Process rollout and adoption

PROFESSIONAL EXPERIENCE

Wipro Limited · Quality Lead

September 2022 - Present

Quality and team leadership

- Own 20 operational KPIs for an 80-person healthcare operations line of business; review about 500 audit records per week in Excel, investigate recurring errors, and monitor turnaround-time requirements.
- Prepare daily and on-demand internal reports and specialized client-facing reports; produce 5 report types tracking error frequency and subject.
- Use recurring quality findings and escalation patterns to guide corrective actions and targeted coaching.
- Deliver monthly refreshers for new trainees and to address errors, usually with 15 to 25 participants per session and up to 60.
- Manage a 20-person operations team (concurrent team-lead duties for approximately two years); create and deliver 20 formal performance reviews every quarter.

Genetics Support Tool

- Investigated recurring genetics handling errors with Excel and Python-assisted classification; refined guidance with the Nurse Supervisor.
- Authored guidance and decision logic; Copilot generated the local browser-based tool's code from it.
- Delivered tool demonstrations and one rollout refresher per team.
- Coach the operations team with the tool, now used by 5 teams across the full 80-person line of business; team leads use it to coach their teams.

SELECTED EARLIER EXPERIENCE

Ashley Furniture Industries · Customer Service Representative

August 2021 - May 2022

Convergys · Technical Support Representative

May 2015 - October 2016
